## Conference Details

The *National Compliance Professional Conference* is an annual event designed specifically for management and compliance professionals to meet and discuss the industry's hottest topics, learn the latest rules and techniques for success, and network with their peers!

The 2018 NCP Conference will be held in **New Orleans** on

**September 26 & 27, 2018** and will be located at the **Hyatt Centric French Quarter**, a fantastic location in the heart of New Orleans action. The French Quarter neighborhood is welcoming & lively, with a variety of sights including the Bourbon Street scene just steps from the hotel. Dine on site at Red Fish Grill and Powdered Sugar, network with your peers in the chic ambiance of Batch Bar or poolside, and enjoy the classic Hard Rock Café experience.

And at the end of each day, the hotel's centralized location will make it easy for you to venture out to visit one of the city's fantastic shops or art galleries, eat great food, experience abundant music & nightlife or take a stroll experiencing the city's amazing architecture. And, if you want to stay in the center of the action when you return, you can book one of the hotel's fantastic Bourbon Balcony Rooms!

The conference is comprised of a series of general assembly discussion-based sessions allowing all participants the time to thoroughly discuss the topic at hand, ask questions, and learn practical solutions for solving issues related to the topic.

We expect 75-100 affordable housing professionals to attend. But these attendees aren't your normal conference attendees rather they are the **KEY** decision makers for their company and include property managers, regional & district supervisors, asset managers, compliance professionals, investors and owners.

**These attendees are attending to find  
solutions to their problems  
with managing and maintaining compliance!**

Both days offer opportunities for your company to capitalize strategically on the creative nature of the event. As there are numerous conferences for you to sponsor, we strive to make your *National Compliance Professional Conference* a unique experience.

**First, let's start with the attendees you will meet.** National Compliance Professionals are made up of individuals that have mastered the rules of compliance; have hands-on experience managing; who are looking for advanced training, great tips and short cuts to make their jobs easier; and who want incredible networking opportunities! And that is **EXACTLY** what they get at the National Compliance Professional Conference.

*"Thank you, yet again, for a valuable experience  
from which I am coming away with. A wealth of  
knowledge and great contacts!"*

**Pam Scruggs, Reg. Acct. Supervisor,  
Metric Property Mgmt., Laguna Niguel, CA**

**Second, let's look at the opportunities you will have to meet and greet these attendees.** We will provide opportunities throughout the conference for you to exhibit your services/products, numerous opportunities for you to be spotlighted throughout the event, and incredible face-to-face time networking with the attendees.

*"Just when I thought it couldn't possibly get any better! This year's conference had more learning and networking opportunities than last year!"*

Tera Lockley, Portfolio Director,  
Virginia Community Dev. Corp, Richmond, VA

**And third, the Conference is an excellent opportunity for you yourself to learn the latest that is happening in our industry!**

*The NCP Conference was one of the best industry gatherings I've been to. The conference took training to a new level and brought together a knowledgeable and experienced group of participants that all added to discussions. It was a great environment to meet prospects that could benefit from our software, but more important than that, it gave us a great look at what compliance specialists, site users, owners and auditors have to deal with on a daily basis. We are constantly striving to make our software more than just a way to process certifications and collect rent; it should be something that makes people's lives better and makes their jobs easier. By participating in discussions and hearing so many different points-of-view, we've been able to add functionality that really speaks to what the industry is looking for.*
